*Honoring Wendy Barnett's gift of life through  
Tennessee Donor Services*

**VinnyLinks Golf Course**  
**Format: 9 Hole, 2 Person Scramble**  
**Shotgun Start @ 12:00PM AND 2:30PM**  
**Entry Fee: \$25 per person**

**THE FIRST TEE OF NASHVILLE**

*Our Mission: To improve the educational and character development of Nashville's youth, through the learning of golf's positive core values.*

The First Tee of Nashville began operation in 2001. Since the date, we have worked with 2,850 juniors. We provide a fun filled environment where children learn life skills

through the game of golf. Using the skills that help them play better golf, our juniors learn to translate those skills and use them at home, in school, and in everyday life. Approximately 50% of our participants receive scholarships so that they may attend our program. Your support allows us to continue this tradition of providing affordable & accessible programs.

**RALLY FOR THE CURE**

*Our Mission: To empower people to join the fight against breast cancer by educating friends, family and community on the importance of early detection through an activity they are passionate about.*

Since the start in 1996, Rally for the Cure has touched over 1.8 million people with the important message that early detection saves lives. In addition to mobilizing people behind the promise to end breast cancer forever, Rally has generated over \$60 million for Susan G. Komen for the Cure.

**WENDY BARNETT**

Wendy started playing golf when she was a child. She loved playing and as an adult, with a blossoming music career, made time in her schedule to play. Wendy grew up one block from VinnyLinks and considered it "sacred ground." She was so excited when The First Tee opened in 2001 and she discovered there was a program to teach kids the game of golf she loved so much; A program that provides equal access and opportunity to everyone. Wendy decided early in life to become a donor. She would visit her mother, who was a nurse at Baptist. While there, she saw the patients anxiously awaiting transplants. She told her mother at age 12 that when she was old enough she wanted to be- come a donor so if some- thing happened to her she could give life to someone else. On September 2, 2002 Wendy passed away in a car accident. Thanks to Wendy, 104 people have lived because she chose to be- come a donor and give life to others.
